

HYGIENE KITS FOR CHURCH WORLD SERVICE

Church World Services (CWS), an organization that responds to disasters around the world with a variety of types of aid, is in need of replenishing their hygiene kits supply.

We at St. John's Center UCC are responding to their request. We are collecting kits or items for kits that are donated by church members or members of the community who bring them to the church and place them in the collection bin located in the vestibule for that purpose. Items the church is collecting to complete each individual kit are as follows:

1. One 16" x 28" hand towel
2. One washcloth
3. One wide-tooth plastic comb (metal combs and rat-tail Combs will not be accepted)
4. One nail clipper
5. One bar of wrapped or boxed bath-size soap
6. One toothbrush in its original package
7. Six standard size band-aids

The church will also accept cash or checks designated for the kits.

Lets make a difference in the lives of refugees, displaced people and victims of natural disasters.
